

## Statement of Purpose

This Statement of Purpose outlines the support and care service that Homeatpeace Supported Living provides to service users aged 18 – 30 years. This document provides a general overview, the range of services provided and the policies and procedures adopted to provide the service. Our full Statement of Purpose is available to all relevant and interested parties on request.

We are committed to the highest standards and quality of care with delivery based on a multi-disciplinary contribution, having at its centre the service users and people significant to them. In particular, we are committed to the development of positive lifestyles for individuals and for them to be integrated, leading the fullest possible life within the community.

Our quality and attention to service users' needs that our care staff provides are the result of experienced managers striving for a high standard of service delivery. In addition, all our managers possess either nursing, social work or vocational qualifications and all have substantial additional experience in supporting people with a more complex range of needs. We will continue to invest in the further development of staff in order to continually respond to individuals' actual and changing needs and wishes.

## Aims and Objectives

Homeatpeace Supported Living is committed to providing social, personal and practical care to those in our supported living accommodation. To equip our clients with the knowledge, skills and ability, to take as much control of their lives as possible. Thereby enabling them to feel more fulfilled in life through the range of opportunities offered to them and help them move on to independent living when they are ready.

## Our Service provides support to:

- Service Users to make informed choices on how to live their lives
- To enable vulnerable adults to develop their confidence and maintain their dignity, by retaining control of the care and support services they receive
- To actively provide access to appropriate health and social care services
- To provide experienced and committed staff that have the appropriate expertise and training to provide a holistic service to adults with a range of complex needs
- Service Users to be involved in all aspects of the service delivery.
- To create a lifestyle that will promote and enhance personal choice, independence and overall well being
- To create an environment where all individuals are valued
- To promote a culture of continual learning within the staff team and foster continual improvement in service delivery
